Snort intrusion detection

Enterprise Management Software

Scalix Community Edition email, calendar, services

NeoMail webmail

SquirrelMail webmail

CRM/Groupware (on LAMP)

SugarCRM Open Source

eGroupware complete groupware package

Financials

SQL Ledger double entry accounting systems
With database back-end

Document Version Management

Subversion integrate with Apache web server
for network repository

Enterprise Network-IT services

PHP-LDAP-Admin web-based LDAP
administration tool

Linux-Apache-MySQL-PHP web/database
application built on PHP

DNS, DHCP, FTP servers

Now Deploying Fedora Core 5!

Network Storage Solutions

RAID+LVM flexible Logical Volume storage
management with reliable Linux-enabled RAID

NFS Networked Storage servers file systems

GFS high performance clustered servers file
systems

HBA+SATA IDE allows multiple IDE storage
disks aggregation

ATA over Ethernet SAN solutions Linux-
kernel enabled SAN storage using inexpensive
IDE disks

Email

**Postfix, Amavisd-new, SpamAssassin,
Pyzor, Razor, DCC and ClamAV** High
performance inline filtering device (spam,
viruses)for existing web-serving architecture or
as a dedicated MTA solution

Encrypted Email

Database Applications

PostgreSQL 8.1

Bizgres business intelligence and Data
Warehousing for PostgreSQL

MySQL 5.x

phpMyAdmin web-based management for
MySQL

Project Management, Diagram, Workflow

Dia application to produce simple diagram.

Galaxia automate and sustain workflow-based
activities and project management.

Wireless Networking

Linux wireless Roaming Access Point

RADIUS Server

Chillispot A captive authentication portal for
wireless network access authentication

Wireless security

RADIUS Authentication Server Provides AAA
(Authentication, Authorization and Accounting)
using 802.1X
